

CURRICULUM VITAE

DR. MERCEDES WANGÜEMERT

PERSONAL DATA

SURNAME: González-Wangüemert

NAME: Mercedes

BIRTH DATE: 25/08/1972

SEX: Woman

OFFICE ADDRESS: CCMAR, Centro de Ciências do Mar,
Universidade do Algarve, Building 7, Office 3.31, Campus de
Gambelas,
P-8005-139. Faro, Portugal

POSITION: Principal Investigator

PHONE: (351) 289 800 900 ext: 7415

FAX: (351) 289 800 069

E-MAIL: mwanguemert@ualg.pt

FCT CV: J038266B07J8

Researcher ID: M-3467-2013

ORCID ID: 0000-0002-0656-358X

Webpage team: www.maresma.org

Webpage CCMAR: <https://www.ccmar.ualg.pt/users/mwanguemert>

ACADEMIC BACKGROUND

2004 Ph.D. University of Murcia, Biological Sciences. Advisors: Dr. Ángel Pérez Ruzafa and Dr. Jose Antonio García Charton. Dissertation Title: "Scales of variability on the genetic structure of SW Mediterranean populations of *Diplodus sargus*. Genetic effects of fishery protection in marine reserves." *Magna Cum Laudem*.

1997 M.S. University of Murcia, Biological Sciences. Advisors: Dr. Ángel Pérez Ruzafa and Dr. Antonio Ortiz Cervantes. Dissertation Tittle: "Morphologic and PGI locus variability of *Cardium glaucum* at Mar Menor coastal lagoon (SE Spain) and its relationship to environmental conditions." *Magna Cum Laudem*.

1996 Master of Environmental Impact Assessment. Institute of Ecological Research. UICN. Málaga, Spain.

1995 B.S. University of Murcia, Zoology. Second Cycle. Spain.

1993 B.S. University of Alicante, Environmental Sciences. First Cycle. Spain.

ACADEMIC POSITIONS

2015- Principal Investigator MARESMA team (MARine RESources
MANagement), IFCT Program (Senior Researcher)
CCMAR, Universidade do Algarve

2010- 2015 CCMAR, Universidade do Algarve. Post-Doctoral Researcher FCT.

2008-2009 University of Murcia (Spain), Marine Ecology Department. Post-
Doctoral Researcher (24 months).

2007 University of Girona, Sciences Department (Spain). Lecturer (6
months).

2005-2007 University of Oporto, CIBIO (Centro de Investigação em
Biodiversidade e Recursos Genéticos)(Portugal). MEC Post-Doctoral
Researcher (22 months).

2004-2005 University of Murcia, Department of Ecology (Spain).Post-Doctoral
Researcher (6 months).

1999-2004 University of Murcia, Department of Ecology (Spain). Pre-Doctoral
Researcher.

2000-2002 University of Murcia, Department of Ecology (Spain). Ph.D. Student.

1997-1999 University of Murcia, Department of Ecology (Spain). Research fellow.

1993-1995 University of Murcia, Department of Ecology (Spain). Pre-graduate
collaborator student.

TEACHING EXPERIENCE

To join the Spanish University Teaching Bodies, i.e. Senior lecturer and Professor, prior national assessment is required which, by assessing the merits and

competences of the candidates, ensures quality when selecting university academic staff. The assessment procedure is carried out per teaching body and branch of knowledge. **Dr. Mercedes Wangüemert got in 2012 the positive assessment for Senior Lecture (Acreditación de Profesor Titular) activity by the National Agency for Quality Assessment and Accreditation of Spain** (<http://www.aneca.es/eng/Programmes/ACADEMIA>).

During several years Dr. Mercedes González-Wangüemert has given practical and theorist lessons at the University of Girona, University of Murcia (Spain) and Universidade do Algarve (Portugal) reaching more than 700 hours.

2018-2019

Mid Season Campus, University of Algarve, Faro, Portugal. 10th-16th June. Seminar: "Development of sea cucumber aquaculture in Europe". Gambelas, Portugal. (2h)

Course "CAL-AQUA 3rd edition: "Care in handling aquatic organisms: Basic and appropriate biology of other invertebrates, sea cucumbers". University of Algarve, Faro, Portugal. (3h)

2016-2017

Universidade do Algarve: *Experimental methods in Marine Biology*. Msc in Marine Biology, Universidade do Algarve. 6 ETCS (54 h).

2016-2017

Universidad Politécnica de Panamá: Applications of population genetics to ecology and management of marine coastal resources. Universidad Politécnica de Panamá, Ciudad de Panamá. 40h.

2015-2016

Universidade do Algarve: *Experimental methods in Marine Biology*. Msc in Marine Biology, Universidade do Algarve. 6 ETCS (54 h).

2015-2016

CCMAR & Universidade do Algarve: *Experimental methods in Marine Biology*. Erasmus Mundus Msc in Marine Biodiversity and Conservation. 4 ETCS (36 h).

2015-2016

INDICASAT & Universidad de Panamá: Application of molecular tools to sea cucumber fishery management, aquaculture and restocking. INDICASAT, 20h.

2014-2015

CCMAR & Universidade do Algarve: *Experimental methods in Marine Biology*. Erasmus Mundus Msc in Marine Biodiversity and Conservation. 4 ETCS (36 h).

2014-2015

CCMAR & Universidade do Algarve: *Field and laboratory methods in Marine Biology*. Erasmus Mundus Msc in Marine Biodiversity and Conservation. 6 ETCS (54 h).

2013-2014

CCMAR & Universidade do Algarve: *Experimental methods in Marine Biology*. Erasmus Mundus Msc in Marine Biodiversity and Conservation. 4 ETCS (36 h).

2012-2013

CCMAR & Universidade do Algarve:

- *Field and laboratory methods in Marine Biology*. Erasmus Mundus Msc in Marine Biodiversity and Conservation. 2 ETCS (18 h).
- *Experimental methods in Marine Biology*. Erasmus Mundus Msc in Marine Biodiversity and Conservation. 4 ETCS (36 h).

2011-2012

CCMAR & Universidade do Algarve: *Field and laboratory methods in Marine Biology*. Erasmus Mundus Msc in Marine Biodiversity and Conservation. 6 ETCS (54 h).

2009- (February) 2010

University of Murcia (Spain):

- *Marine Ecology: Biological Oceanography*, practical and theoretical lessons. 4th Course of Biology Degree, Marine Biology Speciality.
- *Exploitation of Marine Resources*, practical and theoretical lessons. 5th Course of Biology Degree, Marine Biology Speciality.

2008- 2009

University of Murcia (Spain):

- *Methodological and Quantitative Ecology*, practical lessons. 4th Course of Biology Degree.
- *Ecology*, practical lessons. 2nd Course of Biology Degree
- *Exploitation of Marine Resources*, practical and theoretical lessons. 5th Course of Biology Degree, Marine Biology Speciality.
- *Ecology and exploitation of marine populations*, theoretical lessons. Master "Fishes Biology. Basic and functional aspects".
- *Biodiversity patterns and management at marine ecosystems and brackish waters*, theoretical lessons. Master "Biodiversity management at Mediterranean environment".

2007- 2008

University of Murcia (Spain):

- *Exploitation of Marine Resources*, practical and theoretical lessons. 5th Course of Biology Degree, Marine Biology Speciality.
- *Ecology*, practical lessons. 2nd Course of Biology Degree.
- *Ecology*, practical lessons. 3rd Course of Environmental Sciences Degree.
- *Methodological and Quantitative Ecology*, practical lessons. 4th Course of Biology Degree.
- *Biodiversity patterns and management at marine ecosystems and brackish water*, theoretical lessons. Master "Biodiversity management at Mediterranean environment".
- *Ecology and exploitation of marine populations*, theoretical lessons. Master "Fishes Biology. Basic and functional aspects".
- *Ecology at XXI Century*. Theorist lessons. 2nd Course. Senior University of Murcia. Ecology Speciality.

2006- 2007

University of Girona (Spain): *Evolutionary Biology*, practical lessons. 2nd Course Biology Degree. 6 months.

2004-2005

University of Murcia:

- *Ecology and Management of Marine Ecosystems*, theorist lessons. 4th Course Biology Degree.
- *Exploitation of Marine Resources*, practical lessons. 5th Course Biology Degree, Marine Biology Speciality.
- *Ecology at XXI Century*. Theorist lessons. 2nd Course. Senior University of Murcia. Ecology Speciality.

2003-2004

University of Murcia:

- *Introduction to marine mammals*. Diving with dolphins. Theorist and practical lessons. University Club of Diving Activities. University of Murcia.
- *Ecology at XXI Century*. Theorist lessons. 2nd Course. Senior University of Murcia. Ecology Speciality.

2001-2002

University of Murcia: *Marine Resources Exploitation*, practical lessons. 5th Course Biology Degree, Marine Biology Speciality.

2000-2001

University of Murcia: *Marine Resources Exploitation*, practical lessons. 5th Course Biology Degree, Marine Biology Speciality.

1995-1996

University of Murcia: *Oceanography*, practical lessons. 5th Course Biology Degree, Marine Biology Speciality.

ADVISOR EXPERIENCE

PhD students

1. Dr. Giomar Helena Borrero Pérez. European Program ALBAN (2007-2010). University of Murcia (Spain). Thesis: Systematics and phylogeography of species of subgenus *Holothuria* (*Echinodermata: Holothuriidae: Holothuria*) from Atlantic Mediterranean region. 26th March 2010. Classification: *Magna Cum Laudem*.
2. Dr. Carlos Vergara Chen. European Program ALBAN (2007-2009) and SENACYT (2010-2011). University of Murcia (Spain). Thesis: Genetic diversity, adaptation, and selection processes on the fauna from the Mar Menor coastal lagoon (SE Spain). 15th December 2011. Classification: *Magna Cum Laudem*. European PhD.
3. Dr. José Martínez Garrido. (2013-2017) Thesis: Systematics, speciation processes, reproductive strategies and genetic structure in *Ruppia*. CCMAR, Universidade do Algarve & Universidad de Alicante. 7th July 2017. Classification: *Magna Cum Laudem*. International PhD.
4. Ph.D. student, Nathalie Marquet. Thesis: Study of the reproductive biology and chemical communication of sea cucumbers (*Holothuria arguinensis* and *H. mammata*). FCT grant (SFRH/BD/90761/2012). Universidade do Algarve. 2013-2017. 24th November 2017.
5. Ph.D. student, Jorge Domínguez Godino. Thesis: SEa CUcumbers: new perspectives for Integrated Multi-Trophic Aquaculture. SECUIMTA. CCMAR, Universidade do Algarve & Universidad de Cádiz. 2015-
6. Ph.D. student, Bita Kalvani. Thesis: The study on induced maturation of female sea cucumber, *Holothuria scabra* (Jaeger, 1833), using radial nerve extract. Gorgan University of Agriculture Sciences and Natural Resources (Iran). 2015-
7. PhD. Student, Catarina Miranda Anjos. Thesis: Establishment of a genetic resource bank for restocking management in Portuguese oyster (*Crassostrea angulata*) and Striped-venus clam (*Chamelea gallina*). FCT grant (SFRH/BD/130910/2017). Universidade do Algarve. 2017-

Msc students

1. Kerstin Hübner. Master Thesis (EMBC Program): Comparing traditional mark-recapture method with a the molecular approach based on genetic parentage assessment to estimate population size of syngnathids in patches of seagrass. CCMAR, Universidade do Algarve. 2012.
2. Fernanda Rodrigues. Master Thesis (EMBC): Role of coastal lagoon on genetic diversity: are they hotspots of biodiversity?. CCMAR, Universidade do Algarve. 2013.
3. Andjin Siegenthaler. Master Thesis (EMBC): Spatial distribution patterns and population structure of *Holothuria mammata* and *Holothuria arguinensis* in the Ria Formosa (Portugal). CCMAR, Universidade do Algarve. 2013.
4. Tiago Braga. Master Thesis (BMB): Evaluation of the antioxidant and antitumor activity of extracts from marine invertebrates. CCMAR, Universidade do Algarve. 2014.
5. Camilla Maggi. Master Thesis (Universita' Politecnica delle Marche): Population and genetic structure of *Parastichopus regalis* (Cuvier, 1817) and its commensal *Carapus acus* (Brünnich, 1768). CCMAR, Universidade do Algarve (Portugal) and Universita' Politecnica delle Marche (Italy). 2014.
6. Siel Wellens. Master Thesis (EMBC): Mangrove propagule predation by the crab *Goniopsis cruentata* in the subtropical Paranaguá Bay (S Brazil). Centro de Estudos do Mar – Universidade Federal do Paraná, Brazil. 2014.
7. Julian Olaya. Master Thesis (EMBC): Mapping the *Holothuria arguinensis* populations from Ria Formosa (Portugal). CCMAR, Universidade do Algarve. 2014.
8. Silke Bossers. Marine Master Thesis from Amsterdam University. The Sea Cucumber Microbiome. CCMAR, Universidade do Algarve and University of Amsterdam. 2015.
9. Filipe Henriques. Master Thesis (BMB): Genetic connectivity patterns in *Holothuria mammata* considering different spatial scales. CCMAR, Universidade do Algarve. 2015.

10. Marlene Wesselmann. Master Thesis (EMBC): Linking genetics with oceanographic currents to establish the connectivity pattern of *Pinna nobilis* in the most Western Mediterranean. CCMAR, Universidade do Algarve. 2015.
11. Alfonso Díaz Suárez. Master Thesis (BMB): Assessing the usefulness of traditional (ossicles) and molecular (barcoding) criteria to the right taxonomic identification of Mediterranean and North-Eastern Atlantic commercial sea cucumbers belonging to the genus *Holothuria*. CCMAR, Universidade do Algarve. 2016.
12. Inne Withouck. Master Thesis (EMBC): Is the sea cucumber *Holothuria polii* a potential indicator species for organic enrichment in the sediments of coastal lagoons?. CCMAR, Universidade do Algarve. 2016.
13. Iarre Lafont. Master Thesis (EMBC): Sheltering behaviour of the sea cucumber *Holothuria arguinensis* in the Ria Formosa (Portugal). CCMAR, Universidade do Algarve. 2016.
14. MGW is being co-advisor of the following Master student: João Gonçalves Cruz. Master Thesis (BMB): Assessment of *Holothuria mammata* (Grube, 1840) stocks in Ria Formosa (Southern Portugal) and preliminary insights for its aquaculture. CCMAR, Universidade do Algarve. 2017.

Bachelor Degree' project

1. Catarina Antunes. Effects of fishing protection on sea cucumber populations from Turkish coast. Universidade do Algarve. 2012-2013.
2. Rafaela Vicente. Ecological contribution of the sea cucumbers from SE Iberian Peninsula. Universidade do Algarve. 2012-2013.

Students' stays (advisor)

1. Mario León Ortega, PhD Student from University of Murcia (Spain), during his CCMAR stay (02-11-2010/04-02-2011). This student was working with ecology and population genetics of owl (*Bubo bubo*, Linnaeus 1758).
2. Lorena Basso, PhD Student from IMEDEA (Spain), during her CCMAR stay (05-03-2011/20-05-2011). This student was working with population genetics of *Pinna nobilis* (Linnaeus, 1758).
3. José Martínez Garrido, PhD student during his CCMAR stay (10-01-2011/10-07-2011) with a fellowship from Leonardo da Vinci Programme. This student was working with population genetics of several seagrass species (*Cymodocea nodosa*, *Zostera noltii* and *Ruppia cirrhosa*).
4. Jorge Domínguez Godino (2 ETCS, EMBC laboratory methods A: Genetic signature of a recent invasion: *Bursatella leachii* coming to Mar Menor coastal lagoon), Roberto Buonomo (2 ETCS, EMBC laboratory methods A: DNA extraction from seagrass leaves samples of *Ruppia cirrhosa*) and Marco Pérez (3 ETCS, EMBC laboratory methods A: DNA extraction from sea cucumbers: *Holothuria tubulosa*, *H. polii* and *H. mammata*). CCMAR. 2011-2012.
5. Mariana Silva (Marine Biology Master, University of Algarve, stay 48 hours: Study of the *Holothuria arguinensis* population dynamics in Ria Formosa) and Tiago Braga (Marine Biology Master, University of Algarve, stay 48 hours: Assessing the abundance and density of sea cucumber populations in Ria Formosa). Universidade do Algarve. 2012-2013.
6. Mathilde Lemoine (2 ETCS, EMBC Laboratory Methods: Comparative study of the epifauna community associated to *Holothuria arguinensis* (Koehler & Vaney, 1906) between different sampling sites (Praia de Faro and Fuzeta) and months (October and November). CCMAR. 2012-2013.
7. Naomi de Roeck (2 ETCS, EMB Laboratory Methods: Mark-recapture experiment of sea cucumber *Holothuria arguinensis* in the Ria Formosa) and Jana Rajnochova (2 ETCS, EMB Laboratory Methods: Assessing the ecology of *Holothuria arguinensis* population in Ria Formosa, Portugal). CCMAR. 2012-2013.

8. Ignacio Pérez-Blasco (2 ETCS, EMBC Lab methods A: Ecology and aquaculture of *Holothuria arguinensis*) and Justine Siegwald (2 ETCS, EMBC Lab methods A: Ossicles morphology on *Holothuria arguinensis*). CCMAR. 2014-2015.
9. Clhoé Moreau: 2 ETCS, EMBC Lab methods B: Sea urchins populations in Ria Formosa (S Portugal) and 2 ETCS, Lab methods A: Echinoderms larvae in Ria Formosa (S Portugal). CCMAR. 2014-2015.
10. Louise Merquiol (2 ETCS, EMBC Lab methods B: Sea cucumber behavior during low tide in Praia de Faro (Ria Formosa, S Portugal)). CCMAR. 2014-2015.
11. Anita Alessandrini (2 ETCS, EMBC Lab methods A: Morphometry of *Holothuria polii'* ossicles). CCMAR. 2014-2015.
12. João Carlos Ferreira (3 ETCS, Internship Marine Biology Master, UALG: Morphometry of *Holothuria polii'* ossicles). CCMAR. 2014-2015.
13. Mariana Santos (3 ETCS, Internship Marine Biology Master, UALG: Morphometry of *Holothuria arguinensis'* ossicles). CCMAR. 2014-2015.
14. Matilde Costa (3 ETCS, Internship Marine Biology Master, UALG: Thermography of *Holothuria arguinensis* in Ria Formosa (S Portugal)). CCMAR. 2014-2015.
15. Marisa Gonçalves (6 ETCS, 2 Internships marine Biology Master, UALG: 1) Identification of Holothuroidea' morphotypes from Antarctica; 2) Density and abundance of *Paracentrotus lividus* in Praia de Faro (Ria Formosa, S Portugal)). CCMAR. 2014-2015.
16. Nadja Velez (3 ETCS, Internship Marine Biology Master, UALG: Influence of sediments on *Cerastoderma glaucum* density and size classes from Mar Menor coastal lagoon (SE Spain)). CCMAR. 2015-2016.
17. Elizabeth Nebot (3 ETCS, EMBC field methods A: Preliminary assessment stocks of *Holothuria arguinensis* (Koehler & Vaney, 1906) in Ria Formosa). CCMAR. 2015-2016.

18. Marta Neves (3 ETCS, Internship Marine Biology Master, UALG: External fauna associated to *Holothuria arguinensis* and *Holothuria mammata* from Ria Formosa (S Portugal)). CCMAR. 2016-2017.
19. Sara da Costa Pereira (3 ETCS, Internship Marine Biology Master, UALG: Density and size distribution of *Holothuria arguinensis* and *Holothuria mammata* along Ria Formosa (S Portugal)). CCMAR. 2016-2017.

Stays of foreign researchers

1. Maria Segovia Viadero (PhD student) from University of Cantabria (Spain). *Genetic considerations on the releases of hatchery-reared juveniles into the wild populations to rebuild the sea urchin stocks from Cantábrico Sea.* 7 weeks. ASSEMBLE MARINE program (<http://www.assemblemarine.org/>), 2012.
2. Katerina Vasileiadou (PhD student), Christina Pavloudi (Msc student) and Dr. Eva Chatzinkolaou from Hellenic Centre of Marine Research (HCMR, Greece). *Effects of stressful environmental factors in lagoonal ecosystems on marine microbial and invertebrate populations.* 5 weeks. ASSEMBLE MARINE program (<http://www.assemblemarine.org/>), 2012.
3. Dr. Pilar Casado de Amezua from Museo Nacional de Historia Natural (CSIC, Spain). *Genetic characterization of zooxanthellae hosted by Mediterranean and Atlantic sea anemones from sea grass meadows: in search of species-specific clade.* 4 weeks. ASSEMBLE MARINE program (<http://www.assemblemarine.org/>), 2013.
4. Katerina Vasileiadou (PhD student), Christina Pavloudi (Msc student) and Dr. Eva Chatzinkolaou from Hellenic Centre of Marine Research (HCMR, Greece). *Effects of stressful environmental factors in lagoonal ecosystems on marine microbial and invertebrate populations.* 3 weeks. ASSEMBLE MARINE program (<http://www.assemblemarine.org/>), 2013.
5. Ozan Sen (Msc student) from Ordu University (Turkey). *Genetic diversity of the *H. mammata* populations from the Turkish coasts.* 4 months. ERASMUS program. CCMAR, Universidade do Algarve. 2013.

6. Chloé Moreau (Msc student) from Paris University (France). *Density and length distribution of Paracentrotus lividus in Ria Formosa (South Portugal)*. Practical credits of Field Methods B subject (48 h) and Lab Methods (24h). 6 months. ERASMUS program. 2014-2015.
7. Rachel Conell (Degree student) from Brigham Young University (United States of America). She collaborated on CUMFISH Project (Sea cucumbers fisheries; PTDC/MAR/ 119363/2010) funded by Fundação para a Ciência e a Tecnologia (Portugal). 1 month (2nd- 30th June 2014).
8. Virginia Reina Pastor (Degree student) from University of Sevilla (Spain). Sea cucumbers from Antarctic. 1 month (16th September-16th October 2016).
9. Donia Kalthoumi (PhD student) from Tunisia University (Tunisia). Traditional taxonomy and barcoding of sea cucumbers from Tunisian coasts. 2 months. (1st June-30st July 2017).
10. Bita Kalvani (PhD student) from Gorgan University (Iran). Induction to oocytes maturation from extracts of radial nervus on *Holothuria arguinensis*. 6 months. (1st July 2017-2nd January 2018).
11. Donia Kalthoumi (PhD student) from Tunisia University (Tunisia). Traditional taxonomy and barcoding of sea cucumbers from Tunisian coasts. 3 months. (1st May-30st July 2018).

RESEARCH INTERESTS

My research activity can be subdivided in the following lines:

1. Sea cucumber fisheries and aquaculture.
2. Cryptic biodiversity in the genera *Holothuria* (Mediterranean Sea and NE Atlantic Ocean).

3. Application of genetics on the management of marine protected areas and fisheries. Effects of fishing protection on the genetic structure of target species (fishes and sea cucumbers). Connectivity of Marine Protected Areas.
4. Genetic variability at spatial and temporal scales and gene flow between the Mediterranean and Atlantic populations of marine fishes, invertebrates and seagrasses.
5. Genetic adaptation in coastal lagoons, genetic responses to environmental stress (*Elysia timida*, *Cerastoderma glaucum*, *Ceratsoderma edule*, *Bursatella leachi*, *Holothuria polii*, *Holothuria arguinensis*, *Holothuria impatiens*, *Pomatochistus marmoratus*, *Diplodus sargus*, *Caulerpa prolifera*, *Cymodocea nodosa* and *Ruppia cirrhosa*).
6. Genetic assessment of restocking in marine ecosystems.

RESEARCH COLLABORATIONS

Most of MGW's lab activities were carried out at University of Murcia (Spain), Université de Perpignan (France), CIBIO (Portugal) and CCMAR (Portugal). Also, MGW has collaborated with other labs:

- Centro do Estudos do Mar, Universidad Federal do Paraná, Pontal do Sul, Brasil (2014-2015);
- IOCAS, Chinese Academy of Sciences, Institute of Oceanology, China (2017-2018);
- University of Amsterdam, Netherlands (2013-2018);
- INDICASAT-AIP, Panamá (2012-2017);
- ARAP, Autoridad de los Recursos Acuáticos de Panamá, Panamá (2017-2018);
- Universidad de La Paz, México (2011-2014);
- University College Dublin, Ireland (2010-2012);
- University of Salford, United Kingdom (2012-2018);
- Australian Institute of Marine Science, Australia (2011-2015);
- Southern Cross University, Australia (2015-2018);
- Reunion University, French Polynesia (2011-2018);

- Ordu University, Turkey (2011-2018);
- Spanish Institute of Oceanography, Mallorca, Spain (2011-2012);
- Institute de Ciéncias del Mar, CSIC, Barcelona, Spain (2011-2012);
- Smithsonian Tropical Research Institute, Panamá (2008-2015);
- Instituto de Investigaciones Marinas y Costeras, INVEMAR, Colombia (2011-2015);
- Universidad Tecnológica de Panamá, Panamá (2016-2018);
- Universidade Federal do Sul da Bahia, Brasil (2015-2018);
- Museo Nacional de Ciencias Naturales, CSIC, Madrid, Spain (2009-2018);
- Laboratorio di Ecología Marina, National Research Council (CNR), Italy (2008-2013);
- Departament of Sciences, Ichthyology Laboratory, University of Girona, Spain (2007);
- Centro de Investigação em Biodiversidade e Recursos Genéticos (CIBIO), Universidade do Porto (2005-2010);
- Departament of Biology, University of Tunisia (2006-2012);
- Department of Fisheries, Oceanography Spanish Institute (IEO)(2004-2013);
- Department of Marine Biology, University of Alicante (2004-2005);
- Centre de Biologie et d'Ecologie Tropicale et Méditerranéenne Laboratoire d'Ictyologie Tropicale et Méditerranéenne. Ecole Pratique des Hautes Etudes - CNRS. Université Perpignan, France (2002-2004).
- Laboratório de Praias Arenosas do Centro de Estudos do Mar, Universidad Federal do Paraná. Pontal do Sul (Brasil) (1997).
- Laboratório de Electroforeses, Departamento de Bioquímica da Universidad Federal do Paraná (Brasil) (1997).

PROJECTS

On going

2016-2019 PTDC/MAR-BIO/5948/2014, *Sea Cucumber as new MARine reSoURce: potential for aquaculture (CUMARSUR)*. **Project leader:** **Dr. Mercedes Gonzalez-Wangüemert.** CCMAR (Portugal), Université de La Réunion (France), Southern Cross University

(Australia) and Institute of Oceanology, Chinese Academy of Sciences (China).

2015-2018 HOLREMAR. *Holothuria arguinensis as new marine resource in Europe: potential for aquaculture.* **Project leader:** Dr. Mercedes Gonzalez-Wangüemert. Sayanes Mar S.L & CCMAR.

2015-2017 COL12IP036. *Genetic and physiological variability of sea sea cucumber (*Isostichopus fuscus*, Ludwig 1875) in the Pacific (Panamá).* GENPHYSOS. SENACYT, (Secretaría Nacional de Ciencia, Tecnología e Inovación), Panamá. Project leader: Dr. Carlos Vergara-Chen. CCMAR (Portugal), INDICASAT (Panamá), INVEMAR (Colombia). **MGW's role: Portuguese coordinator.**

2015-2017 Ministerio de Economía y Competitividad. *Coastal species with low dispersal ability: connectivity, genetic structure and conservation (CONCoast).* Project leader: Dr. Annie Machordom. MNCN (Spain), Universidad de Roma (Italy), Centro de Ciências do Mar (CCMAR) and Istituto di Scienze Marine (ISMAR, Italy). **MGW's role: member of team.**

2014-2017 Edital Universal, MCTI/CNPq 14/2013. *Efetividade da área de exclusão de pesca da Reserva Extrativista do Corumbau na exportação de larvas de *Scarus trispinosus* e conectividade entre populações.* Project leader: Dr. Fabiana Hackradt. Universidade Federal da Paraíba (Brasil), Universidade federal de Pernambuco (Brasil), Centro do Ciências do Mar, Universidade do Algarve (Portugal). **MGW's role: member of team.**

2014-2017 SENACYT (Secretaría Nacional de Ciencia, tecnología e Inovación), ITE12-007. *Identification of genetic adaptive variation in wild populations of sea bass, *Centropomus armatus* (Gill, 1863).* ADAPVAR. Project leader: Dr. Carlos Vergara-Chen. INDICASAT-AIP (Panamá), University of Georgia (EEUU) and Centro do Ciencias do Mar (Universidade do Algarve, Portugal). **MGW's role: Portuguese coordinator.**

International

- 2016-2017** *Okalunga Project: Assessment of potential areas for sea cucumber aquaculture in Angola.* **Project leader:** **Dr. Mercedes Gonzalez-Wangüemert.** The 13th Door Sociedade Unipessoal LDA and Marine Atlantic.
- 2015** *Pilot study of Holothuria polii culture in La Encañizada de la Torre (Mar Menor, Murcia, Spain).* **Project leader:** **Dr. Mercedes Gonzalez-Wangüemert.** Piscifactorías Albadalejo S.A & CCMAR.
- 2012-2015** FCT, PTDC/MAR/119363/2010. *Sea cucumbers: the new resource for a hungry fishery (CUMFISH).* **Project leader:** **Dr. Mercedes Gonzalez-Wangüemert.** CCMAR (Portugal), CSIC (Spain), IEO (Spain), INVEMAR (Colombia), Université de La Réunion (France), Australia Institute of Marine Science (Australia) and Ordu University (Turkey). <http://www.ccmar.ualg.pt/cumfish/>
- 2010-2014** SENECA Foundation. Murcia Government. *Molecular ecology and climate change: adaptive differentiation of Cymodocea nodosa and Caulerpa prolifera populations through environmental clines.* **Project leader:** **Dr. Mercedes González-Wangüemert.** University of Murcia (Spain) and Centro do Ciencias do Mar (Universidade do Algarve, Portugal).
- 2009-2011** BBVA Foundation. *Assessment of population dynamic and mobility to grouper management: Comparison among fishery and biological marine reserves.* Project leader: Dr. García-Charton. University of Murcia (Spain), Universidade Federal de Santa Catarina (Brasil). **MGW's role: member of team.**
- 2009-2011** Ministerio de Ciencia e Innovación (MCI, Spain). *GENCONNECT: Genetic structure and connectivity in marine species and parameters (biotic and abiotic) determining their evolution.* Project leader: Dr. Annie Machordom. MNCN (Spain), Universidad de Roma (Italy), National Institute of Water and Atmospheric Research (NIWA, New Zealand).

Zealand), Universidad de Murcia (Spain), Istituto di Scienze Marine (ISMAR, Italy). **MGW's role: member of team.**

2008-2009 Laboratorio di Ecologia Marina, National Research Council (CNR, Italy). Genetic variability of cultivated and wild populations of white sea bream (*Diplodus sargus*) in Sicilia. Project leader: Dr. Pérez-Ruzafa and Dr. Giovanni D'Anna. **MGW's role: member of team.**

2006-2008 European Commission; INTERREG Program. *AMPAMED: Le rôle des Aires Marine Protégées dans la gestion durable d'Activités économiques, telles que la pêche artisanale et le tourisme, en harmonie avec l'identité culturelle des régions de Méditerranée Occidentale*. Project leader: Dr. Maddy Cancemi. Office de l'Environnement de la Corse (France), Istituto per l'Ambiente MarinoCostiero del CNR (Italy), Fondazione IMC - International Marine Centre (Italy), Are marina Protesta Penisola del Sinis – Isola de Mal di Ventre – Comune di Cabras (Italy) & Universidad de Murcia (Spain). **MGW's role: member of team.**

2006-2007 AECI. *Ecology, biology, genetics and parasitology of Tunisian and Spanish Sparid populations*. Project leader: Dr. Ángel Pérez Ruzafa and Dr. Ben Hassine. **MGW's role: member of team.**

2005-2007 European Commission (VI Marco Program). EMPAFISH: *European Marine Protected Areas as tools for fisheries management and conservation*. Project leader: Dr. Ángel Pérez Ruzafa and Dr. Jose Antonio García Charton. **MGW's role: member of team.**

1997-1999 UNIVALI, Parana Marine Center and Parana State University. *Biology, genetic variability and management of Pecten ziczac in Brazil*. Project leader: Dr. Borzone and Dr. Pezzuto. **MGW's role: member of team.**

National

2008-2009 Regional Ministry of Universities, Company and Research, Comunidad Autónoma de Murcia (Spain). *PEPLAN: Coastal monitoring system in*

Mar Menor. Project leader: Angel Pérez Ruzafa. University of Murcia and University of Cartagena. **MGW's role: member of team.**

- 2006-2008** SENECA Foundation. Murcia Government. *Role of coastal lagoons about marine genetic diversity*. Project leader: Dr. Ángel Pérez Ruzafa. **MGW's role: member of team.**
- 2004-2007** EUTROCOST. Ministry of Science and Technology. *Response of trophic network of coastal lagoon to agricultural nutrient inputs*. Project leader: Dr. Ángel Pérez Ruzafa. **MGW's role: member of team.**
- 2004-2005** Oceanography Spanish Institute (IEO). *Comparison of genetic structure of Pomatochistus between coastal lagoon and marine populations*. **Project leader:** Dr. Elena Barcala Bellod, **Dr. Mercedes González-Wangüemert**, Dr. Julio Mas.
- 2003-2005** SENECA Foundation. Murcia Government. *Importance of genetic flows and marine reserves in the biodiversity management*. Project leader: Dr. Ángel Pérez Ruzafa. **MGW's role: member of team.**
- 2003-2005** Research Group: Ecology and Management of Marine Coastal Ecosystems, University of Murcia. *Genetic differentiation of Elysia timida (Risso, 1818) populations in Southwest Mediterranean and Mar Menor coastal lagoon (Spain)*. **Project leader:** Dr. Ángel Pérez Ruzafa, **Dr. Mercedes González-Wangüemert** and Dr. Francisca Giménez-Casalduero.
- 2004** Regional Ministry of Agriculture, Environment and Water. *Follow-up of marine reserve Cape of Palos-Hormigas Islands (Spain)*. Project leader: Dr. Ángel Pérez Ruzafa. **MGW's role: member of team.**
- 2000-2003** SENECA Foundation. Murcia Government. *Scales of spatio-temporal variability of protection marine areas effects: range of propagules and adult fishes dispersion and cascade effect*. Project leader: Dr. Ángel Pérez Ruzafa. **MGW's role: member of team.**

- 2003** Research Groups: Ecology and Management of Marine Coastal Ecosystems and Zoology Group, University of Murcia. *Genetic differentiation of Atherina boyeri populations in Mediterranean Sea and Mar Menor coastal lagoon (Spain)*. **Project leader:** Dr. Mar Torralva, **Dr. Mercedes González-Wangüemert** and Dr. Ángel Pérez Ruzafa.
- 2003** Regional Ministry of Agriculture, Environment and Water. *Follow-up of littoral water condition and pollution by agriculture nitrate in Mar Menor coastal lagoon (Spain)*. Project leader: Dr. Ángel Pérez Ruzafa. **MGW's role: member of team.**
- 2002** Regional Ministry of Agriculture, Environment and Water. *Control of littoral water quality of Mar Menor (Murcia, Spain)*. Project leader: Dr. Ángel Pérez Ruzafa. **MGW's role: member of team.**
- 2002** Regional Ministry of Agriculture, Environment and Water. *Follow-up of marine reserve Cape of Palos-Hormigas Islands (Spain)*. Project leader: Dr. Ángel Pérez Ruzafa. **MGW's role: member of team.**
- 2001** *Environment watching of YAIZATUN S.A activities: fattening and greasing of tuna. (Canarian Islands, Spain)*. Project leader: Pangea Mediterranea S.L. **MGW's role: member of team.**
- 2001** *Environment watching of fish farming activities of BLUE & GREEN PISCIFACTORÍA DEL SURESTE S.L. (Murcia, Spain)*. Project leader: Pangea Mediterranea S.L. **MGW's role: member of team.**
- 2001** *Environment watching of Viver-Atún S.A activities: fattening and greasing of red tuna. (Murcia, Spain)*. Project leader: Pangea Mediterranea S.L. **MGW's role: member of team.**
- 2001** *Environment watching of Tunagraso S.A activities: fattening and greasing of red tuna. (Murcia, Spain)*. Project leader: Pangea Mediterranea S.L. **MGW's role: member of team.**

- 2001** *Environment watching of fish farming activities in Tenerife (Canarian islands, Spain).* Project leader: Pangea Mediterranea S.L. **MGW's role: member of team.**
- 2001** *Environment watching of fish farming activities of CULMAMUR S.A. (Spain).* Project leader: Pangea Mediterranea S.L. **MGW's role: member of team.**
- 1999-2001** CICYT MAR 98-0449-C-2-01. Ministry of Science and Technology. *Study of habitat effect on adults and recruitment reef fishes at marine protected areas (SE Spain).* Project leader: Dr. Ángel Pérez Ruzafa. **MGW's role: member of team.**
- 1997** Regional Ministry of Agriculture, Environment and Water. *Study of jellyfish populations (Cotylorhiza tuberculata) at Mar Menor. Problems and solutions.* Project leader: Dr. Ángel Pérez Ruzafa. **MGW's role: member of team.**
- 1996** Regional Ministry of Agriculture, Environment and Water. *Study of jellyfish populations (Cotylorhiza tuberculata) at Mar Menor coastal lagoon (Spain).* Project leader: Dr. Ángel Pérez Ruzafa. **MGW's role: researcher.**
- 1995** IBERDROLA S.A. *Valuation of marine habitat that surround thermal power station (Escombreras, Spain).* Project leader: Dr. Ángel Pérez Ruzafa. **MGW's role: member of team.**
- 1995** Regional Ministry of Agriculture, Environment and Water. *Management of artificial reefs and establishment of initial condition of marine reserve Cape Palos and Hormigas islands (Spain).* Project leader: Dr. Ángel Pérez Ruzafa. **MGW's role: member of team.**

MEMBER IN PROFESSIONAL ASSOCIATIONS

2007- 2018 Member of Spanish Society of Evolutionary Biology (SESBE).

- 2004-2009** Member of the Committee for Courses and Activities of Diving University Club (CUAS) (University of Murcia, Spain).
- 2002-2005** Member of the Committee for University Staff Meeting. University of Murcia.
- 1995-2010** Member of Diving University Club, University of Murcia (Spain).

Jardines olvidados bajo el mar: evaluación del estado de conservación de las fanerógamas *Ruppia cirrhosa* Petagna (Grande) y *Zostera noltii* (Hornemann) mediante su estudio genético. III Congreso Nacional de Biodiversidad. Oral communication. Granada, Spain.

7. León-Ortega, M., **González-Wangüemert, M.**, Pérez, E., Lacalle, J.A., Martínez, J.E., Calvo-Sendín, J.F. Qué nos ululan los Búhos Reales de la Región de Murcia? Patrones de diversidad genética.III Congreso Nacional de Biodiversidad. Oral communication. Granada, Spain.

2010

1. Vergara-Chen, C., **González-Wangüemert, M.**, Marcos, C., Pérez-Ruzafa, A. Molecular ecology of lagoon populations: history of *Pomatochistus marmoratus* (Pisces, Gobiidae) in Mar Menor coastal lagoon. XVI Simposio Iberico de Estudios de Biología Marina. Oral communication. Alicante, Spain.

2. Vergara-Chen, C., Aguirre, W.E., **González-Wangüemert, M.**, Bermingham, E. Phylogenetic and phylogeographic analysis of genus *Cynoscion* (Pisces: Scianidae) using mt and nuclear DNA. XVI Simposio Iberico de Estudios de Biología Marina. Oral communication. Alicante, Spain.

3. Muniaín, C., Giménez-Casalduero, F., **González-Wangüemert, M.**, Garrote-Moreno, A. Review about *Elysia timida* (Risso, 1818). VI Simposio Iberico de Estudios de Biología Marina. Poster. Alicante, Spain.
4. Vergara-Chen, C., **González-Wangüemert, M.**, Marcos, C. & Pérez-Ruzafa, A. High genetic diversity and absence of population differentiation in coastal lagoon environments: the case of the cockle *Cerastoderma glaucum* (Bivalvia: Cardiidae). Congresso Português de Malacología 2010. Oral communication. Faro, Portugal.

2009

1. Vergara-Chen, C., **González-Wangüemert, M.**, Marcos, C. & Pérez-Ruzafa, A. Do the environmental conditions shape the genetic structure of local populations in a Mediterranean coastal lagoon? 4th European Conference on Coastal Lagoon Research. Poster. Montpellier, France.
2. Vergara-Chen, C., **González-Wangüemert, M.**, Pérez-Ruzafa, Á. & Marcos, C. Influence of lagoon environment on genetic structure of a recent colonizer of Mar Menor coastal lagoon (*Holothuria polii*) and a typical lagoon species (*Pomatoschistus marmoratus*). 3ª ALBAN Conference. Oral Communication. Porto, Portugal.
3. Kaouache, M., Bahri-Sfar, L., **González-Wangüemert, M.**, Pérez-Ruzafa, Á., Ben Hassinne, O. Étude de la structure génétique des populations du sar commun *Diplodus sargus* des côtes tunisiennes. 4º Rencontres de l'Ichtyologie en France. Oral communication. Paris, France.
4. **González Wangüemert, M.**, Pérez-Ruzafa, A., Marcos, C., & Alexandrino, P. Understanding the biogeography of the atlantic and mediterranean islands using mitochondrial and nuclear markers. A case of study: the white seabream (*Diplodus sargus*). Evolutionary islands 150 years after Darwin. Poster. Leiden, Holanda.
5. Borrero-Pérez GB., **González-Wangüemert, M.** Pérez-Ruzafa A., Marcos-Diego C. Genetic diversity and population structure of the sea cucumber *Holothuria mammata* in the Atlanto-Mediterranean region. Evolutionary islands 150 years after Darwin. Poster. Leiden, Holanda.

2008

1. Vergara-Chen, C., **González Wangüemert, M.**, Marcos, C., & Pérez-Ruzafa, A. Divergencia poblacional adaptativa de *Holothuria polii* en lagunas costeras: implicaciones genéticas. IV Congreso de la Naturaleza de la Región de Murcia. Oral communication. Murcia, España.
2. Borrero-Pérez, G., Pérez-Ruzafa, A. Marcos, C. & **González Wangüemert, M.** Estatus taxonómico de algunas especies del subgénero *Holothuria* (*Echinodermata: Holothuroidea: Holothuriidae*) con base en datos moleculares. IV Congreso de la Naturaleza de la Región de Murcia. Oral communication. Murcia, España.

2007

1. Borrero-Pérez, G., Pérez-Ruzafa, A. & **González Wangüemert, M.** Taxonomic status of *Holothuria* subgenus species (*Holothuria: Holothuriidae*) from the Mediterranean Sea and Macaronesian Islands using mt-DNA. I Congreso de la Sociedad Española de Biología Evolutiva. Poster. Tarragona, Spain.

2006

González-Wangüemert, M., Cánovas, F., Pérez-Ruzafa, Á., Marcos, C. Aplicación de los modelos aditivos generalizados para establecer relaciones entre la composición genética de *Cerastoderma glaucum* y la variabilidad ambiental de la laguna costera del Mar Menor (SE de España). II Congresso Iberico de Ecologia. Poster. II Congresso Iberico de Ecologia. Lisboa, Portugal.

2. **González Wangüemert, M.**, Alexandrino, P., Froufe, E., Marcos, C. & Pérez-Ruzafa. Estructura genética de las poblaciones de *Diplodus sargus* a ambos lados del Estrecho de Gibraltar. Flujos genéticos y procesos de especiación. XIV Simposio Iberico de Estudios de Biología Marina. Oral communication. Barcelona, Spain.

2005

1. **González-Wangüemert, M.**, Pérez-Ruzafa, Á. Giménez-Casalduero, F. Is the Mar Menor coastal lagoon a ecological barrier for (*Elysia timida*)?. Evidence of a

genetic differentiation in the sacoglossan populations. IV International Congress of the European Malacological Societies. Poster. Naples, Italy.

2. **González-Wangüemert, M.**, Pérez-Ruzafa, Á. & Marcos, C. Genetic selection at Mar Menor coastal lagoon (SW Mediterranean). II International Conference "European lagoons and their watersheds: function and biodiversity". Oral communication. Klaipéda, Lithuania.

3. **González-Wangüemert, M.**, Pérez-Ruzafa, Á., García-Charton, J.A. & Marcos, C. Spatial patterns in the genetic diversity of *Diplodus sargus* in North Atlantic and Western Mediterranean populations. ASLO Summer Meeting. A Pilgrimage Through Global Aquatic Sciences. Oral communication. Santiago de Compostela, Spain.

2004

1. **González-Wangüemert, M.**, Giménez-Casalduero, F. & Pérez-Ruzafa, Á. Genetic variability of *Elysia timida* (Risso, 1818) populations in SW Mediterranean and Mar Menor coastal lagoon. III Congreso de la Naturaleza de Murcia. Oral communication. Murcia, Spain.

2. García Charton, J.A., **González-Wangüemert, M.**, Pérez-Ruzafa, Á. & Marcos Diego, C. 15 years of follow-up of Cape Palos-Hormigas' reef fishes. III Congreso de la Naturaleza de Murcia. Oral communication. Murcia, Spain.

3. Herrero Pérez, A., Espejo Cayuela, C., Polti, S., García Charton, J.A., **González-Wangüemert, M.**, Pérez-Ruzafa, Á. & Marcos Diego, C. Impact of diving activities in Cape Palos-Hormigas Islands marine reserve. III Congreso de la Naturaleza de Murcia. Oral communication. Murcia, Spain.

2003

1. **González-Wangüemert, M.**, Pérez-Ruzafa, Á., Marcos, C. & García-Charton, J.A. Effects of fishing protection on the genetic structure of target fish populations. II International Congress of Marine Science and Technology. Oceans III Millenium. Poster. 2003. Alicante, Spain.

2001

1. **González-Wangüemert, M.**, García-Charton, J.A., Marcos, C. & Pérez-Ruzafa, Á. Effects of the absence of fishing in marine protected areas on reproductive strategy of *Diplodus sargus* (Linnaeus, 1758). Poster. 36th European Marine Biology Symposium. Menorca, Spain.
2. **González-Wangüemert, M.**, Marcos, C. & Pérez-Ruzafa, Á. Complex effects on genetic structure of populations of *Diplodus sargus* (Linnaeus, 1758) in marine areas protection. Poster. 36th European Marine Biology Symposium. Menorca, Spain.

1998

1. **González-Wangüemert, M.**, Ortiz, A. & Pérez-Ruzafa, Á. *PGI* variability at *Cardium glaucum* (L.) populations from Mar Menor coastal lagoon (Spain) and its relationship to environmental. Carvoeiro, Portugal.

1997

1. **González-Wangüemert, M.**, Rosique, M.J., Pérez-Ruzafa, A. & Ortiz, A. Genetic divergence at *PGI* locus between two *Ostrea* sympatric species in Mar Menor coastal lagoon (Spain). VI congreso Nacional de Acuicultura. Murcia, Spain.
2. **González-Wangüemert, M.**, Ortiz, A. & Pérez-Ruzafa, Á. *PGI* variability in *Cardium glaucum* (L.) at Mar Menor coastal lagoon (SE Spain) and its relation to environmental parameters. II Congreso de la Naturaleza de Murcia estudio y Conservación de los Ecosistemas Semiáridos y las zonas costeras. Murcia, Spain.

1996

1. Pérez-Ruzafa, A., Aliaga, V., Barcala, E., García-Charton, J., **González-Wangüemert, M.**, Gutiérrez, J.M., Marcos, C & Salas, F. Benthic fauna of Escombreras Bay (Murcia, SE Spain). IX Simposio Ibérico de Estudios del Bentos Marino. Oral communication. Madrid, Spain.
2. Pérez-Ruzafa, A., Aliaga, V., Barcala, E., García-Charton, J., **González-Wangüemert, M.**, Gutiérrez, J.M., Marcos, C., Pérez-Ruzafa, I. & Salas, F.

Influence of thermal pollution on benthic algae of Escombreras Bay (Murcia, SE Spain). Oral communication. Madrid, Spain.

STAYS IN RECOGNIZED CENTRES

1997. Laboratório de Praias Arenosas do Centro do Estudos do Mar, Universidad Federal do Paraná. Pontal do Sul, Brasil. 5 weeks. Topic: Molecular ecology, Molluscs, *Pecten ziczac*

1997. Laboratório de Electroforeses, Departamento de Bioquímica da Universidad Federal do Paraná. Curitiba, Brasil. 3 weeks. Topic: Marine genetics

2002. Centre de Biologie et d'Ecologie Tropicale et Méditerranéenne Laboratoire d'Ictyologie Tropicale et Méditerranéenne Ecole Pratique des Hautes Etudes -CNRS Université de Perpignan. Perpignan, France. 1 week. Topic: Population genetics of *Diplodus sargus*

2005-2007. Centro de Investigação em Biodiversidade e Recursos Genéticos (CIBIO), Universidade do Porto. Porto, Portugal. 80 weeks. Topic: Postdoctoral grant on genetic structure of Mediterranean and Atlantic fish populations.

2006. Department of Biology, University of Tunisia. Tunisia. 2 weeks. Topic: Discussion of results from AECI 2005-2006 (A/4396/05) Project. Sparid genetics.

2009. Centre: Centro do Ciências do Mar do Algarve (CCMAR). Faro, Portugal. 5 weeks. Topic: postdoctoral stay on genetic adaptation, selection, coastal lagoons.

2009. Centro do Ciências do Mar do Algarve (CCMAR). Faro, Portugal. 12 weeks. Topic: Genetic adaptation, GIS, GAM, modelling, coastal lagoons

2015. INDICASAT, Scientific Investigation Institute and High End Technology Services. Ciudad de Panamá, Panamá. 2 weeks. Topic: Course Sea cucumber aquaculture; Invited researcher.

2017. INDICASAT, Scientific Investigation Institute and High End Technology Services. Universidad Tecnológica de Panamá. Ciudad de Panamá, Panamá. 2 weeks. Topic: Course Molecular tools on fisheries and ecosystem management; Invited researcher.

2017. IOCAS, Institute of Oceanology, Chines Academy of Sciences, Qingdao, China. 10 days. Topic: collaboration on sea cucumber aquaculture research under CUMARSUR project.

2018. Universidad Tecnológica de Panamá. Ciudad de Panamá, Panamá. 2 weeks. Topic: Workshop on fiher management of sea cucumbers; Invited researcher.

OTHERS MERITS

Organization of scientific dissemination activities

2018

1. *Día Aberto do CCMAR (Open Doors Day in CCMAR)*, Faro, Portugal. 22 Fevereiro 2018. Activities “Organismos que habitam a Ria” (“Marine organisms inhabiting Ria Formosa”). Students (14-16 years old) from several High Schools from Faro and Olhão.

2. I Workshop Técnico em IMTA, Olhão, Portugal. Projecto AQUATRANSFER. 12 de Abril de 2018. “Desenvolvimento do cultivo de pepino do mar e avaliação de sistemas de cultivo integrado com espécies emergentes”. Olhão, Portugal.

3. Mid Season Campus, University of Algarve, Faro, Portugal. 10th-16th June. Seminar: “Development of sea cucumber aquaculture in Europe”. Gambelas, Portugal.

4. Course “CAL-AQUA 3rd edition: “Care in handling aquatic organisms: Basic and appropriate biology of other invertebrates, sea cucumbers”. University of Algarve, Faro, Portugal.

2017

1. Visit of Generals from Portuguese Navy to Ramalhete facilities (CCMAR activity). Sea cucumbers activities: description of ecological importance, aquaculture future, economical importance, illegal fisheries. 7Th June 2017.
2. *Día Aberto do CCMAR (Open Doors Day in CCMAR)*, Faro, Portugal. Activities, 23 th February 2017: "Organismos que habitan a Ria" ("Marine organisms inhabiting Ria Formosa"). Students (14-16 years old) from several High Schools from Faro and Olhão.
3. Activities with Hokkaido University Group, field and lab work, Faro, Portugal. March 2017: "Fisheries and aquaculture of sea cucumbers from mediterranean and NE Atlantic waters". Six students (Msc and graduate) and two professors from Hokkaido University (Japan). 2 weeks.
4. Visit of ambassador from Corea (Mr. Chul-Min Park) to MARESMA lab (CCMAR) in 5th December 2017. Talk about the main research lines of the team, focused on sea cucumber aquaculture and processing methodology of beche-de-mer product.

2016

1. *Semana da Cultura Científica do CCMAR*, Faro, Portugal. Exposition of four posters presented to previous national and international congresses. 21st-25th November 2016.
2. *Oceans Meeting (Economy, Ocean Culture, Science and Innovation)*, Lisbon, Portugal. Activities, 2nd-3rd June 2016: "Sea cucumbers: how to cultivate and commercialize new species for our table!" (Dr. Mercedes Wangüemert).
3. *Farnautica*, Faro, Portugal. Activities, 6-8th May 2016: "Descubra tudo sobre pepinos do mar" ("Discovering everything on sea cucumbers").
4. *Día Aberto do CCMAR (Open Doors Day in CCMAR)*, Faro, Portugal. Activities, 18 th February 2016: "Organismos que habitan a Ria" ("Marine organisms inhabiting

Ria Formosa"). Students (14-16 years old) from several High Schools from Faro and Olhão.

5. Activities with Hokkaido University Group, field and lab work, Faro, Portugal. March 2016: "Ecology and biology of *Holothuria arguinensis* in Ria Formosa (S Portugal)". Six students (Msc and graduate) and two professors from Hokkaido University (Japan). 2 weeks.

6. Visit of Japanese ambassador to MARESMA lab (CCMAR) in 14th March 2016. Talk about the main research lines of the team and exhibition of the equipment and facilities used by students and professors from Hokkaido University.

2015

1. Course "Application of molecular tools on fishery management, aquaculture and restocking of sea cucumbers". INDICASAT AIP (Instituto de Investigaciones Científicas y Servicios de Alta Tecnología de Panamá), ARAP (Autoridad de los Recursos Acuáticos de Panamá) and CCMAR (Centro de Ciências do Mar). Ciudad de Panamá, Panamá. 20 hours. November.

2. *BlueWeek*, Lisbon, Portugal. Activities. 4-6th June 2015: (i) In Gulbenkian Oceans Hub, 5 th June 2015, talk and get together about new aquaculture resources in Europe.; (ii) Stand about aquaculture on European sea cucumbers; (iii) tasting of several receipts of *Holothuria arguinensis* (funded by Sayanes Mar S.L.).

3. Program "*Ocupação Científica de Jovens nas Férias*". (Summer internship for teenagers in CCMAR). Activity "Sea cucumbers as potential resource for aquaculture" (field sampling, DNA extractions, PCRs, visual census, sea cucumber thermography). July 2015.

2014

1. Workshop from CUMFISH project (Sea Cucumbers: the new resources for a hungry fishery; PTDC/MAR/119363/2010) funded by FCT (Fundação para a Ciência e a Tecnologia, Portugal) and European Union (EMBC and Erasmus Programs).

2. Activities during the *Science and Technology Week*. Talk: Sea cucumbers from Algarve (South Portugal) and aquaculture potential. Secondary School Dr. Francisco Fernandes Lopes de Olhão (S Portugal). November 2014.
3. Activities during the *Science and Technology Week*. Exhibition on sea cucumbers from Europe: economical and ecological value. Centro de Ciência Viva de Tavira and CCMAR. Mercado de Tavira (S Portugal), November 2014.
4. Program “*Ocupação Científica de Jovens nas Férias*”. (Summer intership for teenagers in CCMAR). Activity “Sea cucumbers ecology and aquaculture” (field sampling, DNA extractions, PCRs, visual census, sea cucumber termography). July 2014.

2015-2012

1. CUMFISH volunteer program for visual census of sea cucumbers in Mediterranean Sea and Atlantic Ocean.
2. CUMFISH volunteer program for mark-recapture sea cucumbers in Mediterranean Sea and Atlantic Ocean.

2013

1. Spreading activity on “Ecological role of sea cucumbers” working with children (5-14 years old) in collaboration with DICA organization, University of Algarve and CCMAR. Praia de Faro (Ria Formosa, Portugal). 27 th July 2013.
2. *European Researchers' Night*. Activities on DNA barcoding: identification of sea cucumbers and CUMFISH project. November 2013.

2012

1. *Science and Technology Week*. Talk: Sea cucumbers from Algarve (South Portugal). Centro de Ciência Viva de Tavira (S Portugal). 20th November 2012.
2. *European Researchers' Night*. Activities on DNA barcoding: identification of sea cucumbers. November 2012.

Outreach

2018

1. Interview Antena 1 (RTP, Portugal): Problemática das pescas de pepinos do mar em Portugal e desenvolvimento da sua aquacultura.
2. Outreach: "Guatizamar, Adiós Lanzarote". Paper published in BioesferaDigital newspaper (<https://www.biosferadigital.com/noticia/guatizamar-adi%C3%B3s-lanzarote>), 20th March.

2017

Outreach: Report & Interview "El hallazgo de dos nuevos pepinos de mar refuerza la tesis de la 'mediterranización' del mar Menor"; Blog "Elclickverde", 2nd July 2017, (<http://elclickverde.com/reportajes/el-hallazgo-de-dos-nuevos-pepinos-de-mar-refuerza-la-tesis-de-la-mediterranizaci%C3%B3n-del>)

"Universidade do Algarve está a criar pepinos-do-mar em terra". Article published in Jornal Publico newspaper, Ciência, 2014, 9th December.

Workshops and seminars

- 2018.** Training on management of hospital residues and animal subproducts from production installations. AMBIMED, Gestão Ambiental, Lda. University of Algarve, Portugal.
- 2017.** Training on management of dangerous residues from research laboratories. University of Algarve, Portugal.
- 2016.** Training on management of dangerous residues from research laboratories. University of Algarve, Portugal.
- 2015.** Introduction to Statistical Fisheries Stock Assessment. University of Algarve, CCMAR and IPMA, Portugal.
- 2014.** CUMFISH Workshop. University of Algarve, Portugal.
- 2012.** Biotechnology applied to aquaculture. University of Algarve, Portugal.
- 2005.** I Conference of Applied Proteomic. University of Alicante. Spain.
- 2004.** Workshop of Fishery Resources. University of Cádiz and Regional Agricultural and Fishery Ministry. Spain.
- 2004.** Workshop of Spatial Date Infrastructure. New requirements and contributions from environment. Service of Information and Environmental Integration of Murcia (SIGA). Spain.
- 2004.** XV Seminar of Population Genetics and Evolution. Spanish Genetic Society. Guadalajara (Spain).
- 2002.** Workshop of Stereology. University of Murcia. OLYMPUS. Spain.
- 2002.** Research Forum to Spanish Fishery in Mediterranean Sea. University of Alicante, Spain.
- 2000.** Workshop of Applied Statistics. University of Murcia, Spain.
- 1999.** International Workshop about Marine Reserves. Agricultural and Fishery Ministry. Spain.

Selected courses

- 2009.** International Symposium "Darwin and Evolution: 150 years of Natural Selection". Ramón Areces Foundation, Madrid (Spain). November 23-24.
- 2009.** Conference: Adaptation to European Space for Higher Education. Biology Faculty, University of Murcia, Spain.

- 2008.** Interspecific relationships in Conservation Biology. International Course. Fundación Ramón Areces and CIBIO, University of Alicante, Spain.
- 2008.** Prevention of risks in laboratories. University of Murcia, Spain.
- 2007.** Conference: Adaptation to European Space for Higher Education. Biology Faculty, Universitat de Girona, Spain.
- 2007** Conference: Adaptation to European Space for Higher Education. Escola Politécnica Superior, Universitat de Girona, Spain.
- 2006** Course of Phylogenetic analyses. CIBIO-University of Porto. Portugal.
- 2003** V Course of Prevention and Treatment of Diving Accidents. University of Murcia and Spanish Navy. Spain.
- 2003** Diving Course. Advanced Scuba Diver. NAUI.
- 2002** Pleasure Craft Skipper. Motor and Sail Ship.
- 2001** Speciation, phylogeny and phylogeography. University of Murcia, Spain.
- 2001** Electrophoretic methods to separation and identification of macromolecules. University of Murcia, Spain.
- 2001** Conservation and restoration of aquatic ecosystems: ideas and programs. University of Murcia, Spain.
- 2001** Management of coastal ecosystems. University of Murcia, Spain.
- 1994** Diving Course. Open Water Diver. PADI EUROPE.

Review and Referee activities

2017-2018

Associate Editor for Marine Fisheries, Aquaculture and Living resources in Frontiers in Marine Sciences Journal (<http://loop.frontiersin.org/people/342431/overview>).

2006-2018

Referee services for 30 Journals included in ISI including: *Comptes Rendus, Marine Biology, Marine Ecology Progress Series, Molecular Phylogenetics and Evolution, Estuarine Coastal, and Shelf Science, Marine Biology Research, African Journal of Agricultural Research, ICES Journal of Marine Science, Marine Ecology, Molecular Ecology, Diversity & Distributions, Aquatic Biology, PlosOne, Journal of the Marine Biological Association of the United Kingdom, Ocean and Coastal Management, Turkish Journal of Zoology, Pakistan Journal of Zoology, Fisheries Research,*

Environmental Monitoring and Assessment, Aquaculture Research, Turkish Journal of Fisheries and Aquatic Science, Revista Mexicana de Biodiversidad, Journal of Sea Research, BMC Evolutionary Biology, Aquatic Ecology and Biological Invasions, Ecology and Evolution, North America Journal of Fisheries Management, Aquatic Botany, Philippine Journal of Science, Molecular Biology Reports, Zootaxa, etc.

2008-2018

Member of research panel to Agencia Nacional de Evaluación y Prospectiva (ANEPE). Spain.

2018

MGW was external reviewer of Fatima Amat' PhD Thesis: "Biological response of invasive fish in a highly regulated Mediterranean river basin". European Ph D. Universidad de Murcia. 2018.

2017

Member of evaluation committee of Research projects from Plan Estatal Retos I+D A 2017. Projects Tipo A. MINECO. Agencia Nacional de Evaluación y Prospectiva. Spanish Government.

2016

Member of evaluation committee of Research projects from Plan Estatal Retos I+D B 2016. Projects Tipo B. MINECO. Agencia Nacional de Evaluación y Prospectiva. Spanish Government.

MGW was member of jury evaluating the Mario León Ortega' Thesis: "Ecological studies of Eurasian eagle-owl (*Bubo bubo*) populations in south-eastern Iberia: territorial occupancy, reproduction, survival, home range and genetic structure.". University of Murcia, Spain. European Degree. 2016.

Member of evaluation committee of Juan de la Cierva' contracts (Formación and Incorporación, 2015) belonging to ANEP (Agencia Nacional de Evaluación y Prospectiva).

MGW was member of jury evaluating the Maria del Mar Soler Hurtado' Thesis: "Conservation of tropical gorgonians in the Eastern Pacific". International PhD. Universidad Internacional Menéndez Pelayo and Museo Nacional de Ciencias Naturales. October 7th 2016.

MGW was member of jury evaluating the CABRERA Prize, offered by Museo Nacional de Ciencias Naturales (CSIC, Madrid, Spain). November 23th 2016.

MGW was member of jury evaluating the Alfonso Suárez Msc Thesis: "Assessing the usefulness of traditional (ossicles) and molecular (barcoding) criteria to the right taxonomic identification of Mediterranean and North-Eastern Atlantic commercial sea cucumbers belonging to the genus *Holothuria*". Universidade do Algarve. December 20th 2016.

2015

MGW was member of jury evaluating the Farahnaz Nissa Solomon' Ph D Thesis: "Connectivity patterns and early life history of the black-faced blenny *Tripterygion delaisi* (Cadenat & Blanche, 1970)". Mares Program, Universidade do Algarve, Portugal. 2015.

MGW was member of jury evaluating the Filipe Henriques Msc Thesis: "Genetic connectivity patterns in *Holothuria mammata* considering different spatial scales". Universidade do Algarve. May 25th 2015.

2014

MGW was external reviewer of Anna Addamo' PhD Thesis: "Systematics and phylogeography of the deep-sea coral *Desmophyllum dianthus* (Anthozoa, Hexacorallia): morphological and molecular evidences". International PhD. Universidad Autónoma de Madrid. 2014.

2012

MGW was reader of C. Roggatz' Msc Thesis. EMBC Master Thesis: "Evaluation of the nutritional profile of different species of sea cucumbers used for human consumption". CCMAR, Universidade do Algarve.

MGW was member of jury evaluating the P. Casado de Amezua Ayala' PhD Thesis: "Genetic assessment of population structure and connectivity in two endemic Mediterranean corals: *Astroides calyculus* (Pallas, 1766) and *Cladocora caespitosa* (Linnaeus, 1767)". European PhD. Universidad de Alcalá de Henares and Museo Nacional de Ciencias Naturales. July 20 th 2012.

2010

MGW was member of jury evaluating the Patricia Cabezas Padilla' PhD Thesis. "Sistemática e historia evolutiva de la familia Galatheidae (Crustacea: Anomura) en el Pacífico Sur." Universidad Autónoma de Madrid. 2010.
